

***Step Into Another Dimension of Time . . . Where the Majesty . . .***

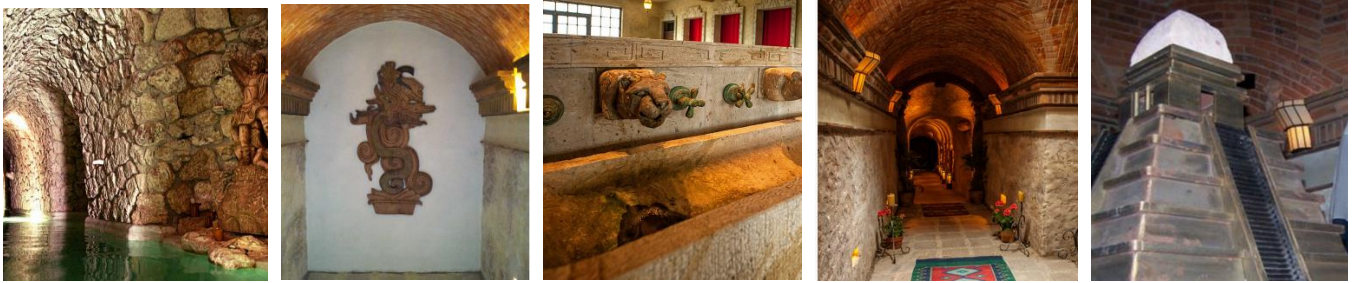

***Of Who You Are Reveals Itself Within The Water And Stone of Spirit.***

You will arrive at our private underground spa and enter into a majestic pyramid chamber and lounge. The subterranean crystalline tunnels and thermal springs beckon to you to explore them.

From the pyramid lounge you venture into the thermal waters and quartz tunnels leading to a cavern filled with 101 degree mineral water. The tunnels and caverns are lined with over 100 candles and Mayan art and artifacts adorn the mysterious passageways.

As you exit the underground caverns you swim out into the grand Mayan pool where you bathe and relax as the Sun goes down and the Stars come out above the sacred mesa of San Miguel de Allende.

During or after your thermal waters experience enjoy a magical massage as well as partake in a local cuisine dinner presented buffet style. The perfect way to complete a magical flourish experience!
